GrowingGreat's Garden at Meadows

Meadows, GrowingGreat, and Manhattan House Partner

Over the last 16 years, students in Manhattan Beach elementary schools have been receiving nutrition and garden education thanks to the support of MBUSD and the wonderful parent docents. We are excited to partner with Celebrity Chef Diana Stavaridis and Manhattan House as we invite GrowingGreat students to create a nutritious, garden-inspired menu item for the restaurant and learn about the world of culinary arts.

Manhattan House is located at
1019 Manhattan Beach Blvd.
Manhattan Beach

GrowingGreat Jr. Chefs @ Manhattan House

GrowingGreat Lead Nutrition and Garden Docents, Johanna Kraus and Stephanie Flores Molter are working with Chef Diana and her team from Manhattan House on having the Meadows 5th Grade GG Jr. Chefs or "Ninja Chefs" create a seasonal, school garden-inspired special menu item to be featured for the month of December. At the first two GrowingGreat "Ninja" Chefs meetings, students shared with Chef Diana and team some favorite foods that they would like to see featured, such as a whole grain pasta, tomato soup, or a school-grown salad. Look for featured dish on the Manhattan House menu in December!

GrowingGreat's mission is to empower every child to grow up healthy through science-based garden and nutrition education. (growinggreat.org)
